EDUCATION

ABES Engineering College, Ghaziabad

2023 – 2027

Bachelor of Technology (B.Tech), Computer Science and Engineering (AIML)

CGPA: 8.81/10

SKILLS

Languages: Java, JavaScript, Python, C++

Web: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

Core CS: DSA, OOPs, DBMS, Operating Systems

EXPERIENCE

MERN Stack Intern

Dec 2025 – Mar 2026

Unified Mentors Pvt. Ltd.

- Developed and integrated 10+ REST APIs for authentication, CRUD operations, and frontend-backend communication.
- Built 5+ full-stack modules using React.js, Node.js, Express.js, and MongoDB.
- Performed API testing and debugging using Postman, improving application reliability and reducing integration issues.
- Collaborated on responsive UI development and backend feature implementation for scalable web applications.

Web Developer Intern

May 2025 – Jun 2025

Launched Global

- Developed responsive web pages using React.js, HTML5, CSS3, and JavaScript.
- Built reusable UI components, reducing code duplication and improving frontend maintainability.
- Optimized website responsiveness across desktop and mobile devices.
- Resolved frontend issues and enhanced user experience through structured debugging.

PROJECTS

AI Interview Preparation Bot

[Live Demo](#) — [GitHub](#)

Tech Stack: React.js, TypeScript, Vite, Tailwind CSS

- Engineered an AI-powered interview preparation platform for technical and behavioral interview practice.
- Implemented role-based and domain-specific interview workflows with chat-based interview simulation.
- Built responsive user interfaces using React, TypeScript, and Tailwind CSS.

Handwritten Digit Recognition System

[GitHub](#)

Tech Stack: Python, TensorFlow, Keras, Scikit-learn, NumPy

- Developed an end-to-end handwritten digit recognition system using the MNIST dataset.
- Implemented data preprocessing, normalization, and visualization pipelines for model training.
- Evaluated TensorFlow/Keras models against Logistic Regression and SVM using accuracy and confusion matrix analysis.

ACHIEVEMENTS

- Qualified **GATE 2026** Examination in Computer Science.
- Published a research paper in **IEEE Conference Proceedings (ICIPTM 2026)** titled *Early Fusion-Based Multimodal Analysis for Identifying Mental Health Conditions from Social Media Data*.
- Solved **300+ Data Structures and Algorithms** problems across LeetCode and CodeChef.
- Demonstrated strong problem-solving skills through competitive programming, technical hackathons, and software development competitions.
